

Hobbyline

Budget-friendly plywood with a poplar core and a B/BB radiata pine veneer, ideal for most DIY projects that do not require structural support.

Hobbyline is perfect for economical interior linings and various non-structural applications. This non-structural radiata pine plywood is competitively priced and available in a wide range of thicknesses. Made from B/BB Radiata Pine veneers pressed onto a poplar core, it offers an affordable solution for various DIY projects and non-structural applications.

Hobbyline
